Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 77-93 and 211-216 drawn to a method of making an IC, classified in class 29, subclass 832.
- II. Claims 94-108, and 217-222 drawn to a method of making and IC, classified in class 29, subclass 832.
- III. Claims 109-210, and 223-258 drawn to a method of making and IC, classified in class 29, subclass 846.
- IV. Claims 259-272, drawn to a circuit interconnect, classified in class 29, subclass 884.

The inventions are distinct, each from the other because of the following reasons:

Group I invention is separate and distinct from Groups II and III inasmuch as in Group II a major portion of the substrate must be removed which is not the case for the Groups I and III inventions; Group I is separate and distinct from Group IV inasmuch as these inventions are independent; Group II is separate and distinct from Group IV inasmuch as these inventions are independent; Group II is separate and distinct from Group III inasmuch as Group III requires no removing step. The initial or starting material can be flexible. Group III is separate and distinct from Group IV inasmuch as these inventions are independent of each other.

Art Unit: 3729

Because these inventions are distinct for the reasons given above and the search required for each of the four (4) Groups is independent, restriction for examination purposes as indicated is proper..

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to C. J. Arbes whose telephone number is (703)308-1857. The examiner can normally be reached on M,T,R,F.
